

# JK Nuggets

April 8, 2016

## This week in JK we...

- Learned about another form of measurement, *capacity*. We counted various manipulatives in different sized containers to see the capacity of each.
- Began our new Weather unit. We demonstrated the reason the seasons change using a globe as the earth and a flashlight as the sun. We learned we have seasons due to the earth's tilt towards or away from the sun at different times of the year.
- The "Academy Award of Books" is coming up on 4/20! This is a school-wide celebration of books during which each grade reads several books and gives awards based on certain categories. The theme this year is "Mysteries." This week we read a funny book about poop (no kidding!) where a mole tries to solve the mystery of who pooped on his head!

## This Week in Photos!

Making M Using Our Bodies!

Puppy Party for CoCo's Birthday!

## Reminders

Our new Letter-of-the-Week is N. Please have your child bring in an object or picture of one beginning with N on Monday.

No School on Thursday, 4/14 for Conferences and Friday, 4/15 for a Spring Holiday!

Discussing Our Peeps Science Experiment Results!
