Reading, Peru, and Notes

Reading Over Vacation

Parents:

Many students are choosing to bring home books over spring break, either from the classroom and/or the library. All books are due back the day we return.

All students are also bringing home directions for taking Accelerated Reader tests while on vacation. We ask that your child take at least four AR quizzes over vacation. Taking these tests are an important step for your child to check to see if he/she is reading carefully. All you need is internet access and the sheet of directions! You should not help your child take the test, but log-in help or help in decoding a word may be necessary.

March 3, 2016

Questions to Ask Your Child This Week:

What books are you going to read over vacation? When you are ready I'll help you log onto the internet to take an AR test!

Can 37 students be divided into equal teams? Can everyone have a partner? Prove it!

What is a Glossary? Where in a book is it found?

What is a fledgling?

Dates to Remember

PERU

Peru is located in the west of South America, and shares borders with Ecuador, Colombia, Brazil, Bolivia and Chile. Its flag, pictured to the left, has vertical bands of red, white, and red. Pictured in the center of the white band is a llama, a Chichona tree, and a cornucopia that represents prosperity. These are a few of the facts the students will learn about the county of Peru next week during Culture Study. For Hundred's Day the students learned about Peruvian Macaws that lick clay dirt for medicinal purposes. Pop into the lower school and see our hundred Peruvian Macaws! In art the students have painted beautiful llamas—stop by the 7-8th grade hallway to see them! These are great examples of cross-curricular learning at Hill!

CLASS NOTES

- ⇒ Many thanks to Wayne, Verna, and Susie for coming with us to the theater yesterday. A great time was had by all!
- ⇒ Join us in the gym tomorrow morning at 8:45 for the Gymnastics Assembly!
- ⇒ Will you be around over Spring Break? Stop by the Boulders or the Courtyard and help keep our bird feeders filled!
