

SECOND GRADE NEWS

Welcome Back, Forum, Math, and Social Studies

Welcome Back!

What a wonderful week to return to school. The students returned ready to see their friends, share their adventures, settle in, and work hard. They are abuzz with excitement and motivated for the challenges ahead. Don't forget to ask, "What's new?" Send them off to school with "You can do it!" They can!! As always, please don't hesitate to contact us with any questions, concerns, or comments!

Life After Hill:

Perspectives of Parents of Hill School Graduates

On Sunday, April 3, from 4:00-5:30 p.m., the Education and School Life Committee (ESLC) will present "Life after Hill: Perspectives from Parents of Hill School Graduates." Six parents of Hill School alumni will share their experiences, challenges, and wisdom regarding their children's educational journeys. Whether your child has recently entered lower school or is about to graduate and depart from Hill, the forum will be an enlightening, informative time for all. Childcare and pizza in the gym will be provided for currently enrolled students, but please respond by Friday to RSVP@thehillschool.org or call the front desk at 687-5897.

Math

Please see the Math Unit 5 letter in this Thursday's Folder. It shares what we will be working on in class as well as fun activities that you can work on at home. In the Investigations book we sent home earlier in the school year the chapter is titled, "Patterns and Functions."

Beginning next week we will be starting morning math and several mornings/weeks we will be working on Data Analysis and Probability.

Social Studies

We are so excited about our spring research unit! The students will be choosing local birds to sketch and research as well as learn how to find information from guides, books, and a birder's website. This is challenging work and we are ready to get started!

March 31, 2016

*Questions to Ask Your
Second Grader This Week:*

What sounds are you working on in word study class? Name some words with those sounds!

If there are 4 rooms on the first floor, how many rooms will the building have if there are 6 floors?

Tell me three interesting facts about bald eagles!

What are your class rules?
