

# BUZZ ABOUT FIRST GRADE

May 3  
2018

## Conversation Starters

What are you going to do in your science lab tomorrow? Let's pick out some gardening clothes for you to wear. (Sunscreen and a baseball hat would be great!)

What are some of the differences between moths and butterflies? Can you name at least five?

What did you learn about English Ivy and invasive plants?

Where is your new seat in the room? Who are you sitting with? How is that working out? How close is the class with the Quiet Bug chart? When do you think you will get to pull another special treat?

Whose birthday was it this week? How did you surprise her?

If April showers bring May flowers, what do May flowers bring?

For the next two weeks Olivia Sirianni (Hill class of 2014 and Highland class of 2018) will be doing her Senior Internship with us in first grade. Olivia is a delightful, warm, engaging young woman. Last year's class fell head over heels for her when she spent her Junior Internship with us. We expect the same this year! Please join us in welcoming her.

## Star Student

Josef loves all things Star Wars. He has always been fascinated with how things such as outlets, electricity, security systems and drains work.

## Upcoming Star Students

Zoe--May 7  
Zoey--May 14

If you have not already done so, please fill out the Grandparents and Special Friends Day paper for us. The children are going to write thank you cards and we need to know how to address them. Also, if your child has no one to attend, we will find a faculty member to be their special friend. We need advance notice to do this.
